## OUR PROGRAM FOR JUNE 15TH:

### THINGS THAT FLY

*GARY THOMPSON'S LOVE AFFAIR WITH AIRPLANES. AND LIFE*

FLAMINGO RESORT HOTEL, WEDNESDAY, 12:00 NOON

Spend a few minutes with Gary Thompson. You will catch his passion for building things that fly because Gary's enthusiasm is immediately contagious: A pilot since his teens, he built and restored eighteen antique biplanes, barnstormed across America for 8½ years, sleeping under the wing and living from ride to ride at 20 bucks a pop. Like many who live on the edge, Gary Thompson believes all of life is an adventure...a journey that means great stories. The people with whom he got involved, the scary emergencies he survived, and the addictive adventures of living on the edge. A remarkable story about living your dreams.

## PROGRAM

**Dave Brown**— **Past President**, fellow Rotarian since

1990, and Chief Executive Officer of the Sonoma County Family YMCA— introduced the two speakers Elizabeth Oku, Aquatics Director of the Y, and Alisa Nelson, Membership and Volunteer Director. Dave also introduced from the audience Andrea Ham, Board Chairman of the local family family YMCA, fellow Rotarian Yale Abrams, also a Rotary Club Past President of Rotary and a board member of the Y.

**Elizabeth and Alisa gave us an informative video program:**

- The YMCA started in 1885. The first known summer camp was held at Orange Lake in New York State.
- In 1910, George Corsan answered a YMCA campaign “to teach every man and boy in North America to swim.” Corsan came to the Detroit Y to teach and build the body using unique methods of group lessons in the pool and lessons on land as a confidence builder.
- In 1938 the YMCA started their aquatic program.
- In 1954 the YMCA was founded in Sonoma County. It started as the Indian Guides and Summer Camp program to serve youths and families.
- In 1972 the program and physical education facility was built near downtown Santa Rosa. Aquatic activities, sports and programs for the entire family expanded the outreach for Santa Rosa’s 18-year-old Y.

**The YMCA offers various swimming programs, such as the following:**

1. Swimming lessons for the very young to very old—an excellent aerobic exercise.
2. Swimming for youth and adults with disabilities (The percentage of Americans with handicaps who are handicapped is between 10 and 12%.
3. Aquatic programs for children and adults who face challenges of all kinds.
4. Pre- and post-natal water exercise program.
5. A warm-water swim program specifically for people who suffer from severe arthritis.

**Other highlights:**

- 58 percent of parents do not considerate the danger of drowning to be life-threatening.
- The Sonoma County YMCA provides community outreach programs to teach people how to swim.
- Most drownings are children, especially young ones. The YMCA teaches the dangers of not monitoring their children when at or near the water. Hispanic children make up 75 percent of the drownings in the United States. The YMCA reaches out to mothers of these children to teach them how to prevent their children from drowning.
- The Sonoma County YMCA operates a highly successful summer swim program in Cloverdale.
